## WORK EXPERIENCE

### Full-Stack Developer Fiverr

2020 - Present

*Achievements/Tasks*

- As a Freelancer at Fiverr, I specialize in Web Design and Development, with a focus on PHP Laravel. My expertise in both design and development allows me to create stunning and functional websites that cater to each client's unique needs.

## PERSONAL PROJECTS

### Online Shopping Cart: (06/2021) [🔗](#)

- We applied CRUD operations in this project using PHP and for database MySQL. This project consisted of an online grocery store in which there were two modules, one was admin and other was user. Admin can insert, update, and delete the items from the website and user can add to cart those available products.

### Laravel BLOG Website: (01/2023) [🔗](#)

- I built a dynamic blog platform using PHP Laravel, allowing easy post management with a user-friendly interface, admin panel, and comment system. Efficiently developed and scalable with Laravel's ORM and MVC architecture.

### Resume Builder (06/2023 - 07/2023) [🔗](#)

- I developed a resume builder website using core PHP, enabling users to effortlessly create resumes with a user-friendly interface. The website streamlines the resume creation process, providing a seamless and user-friendly experience for users.

## EDUCATION

### Matriculation TCF SSD-XIII

2005 - 2017

### Intermediate
