## PROFILE

- I am Rabbia Saleh, a dedicated Computer Science student with proficiency in Python, Java, and C++, specializing in innovative problem-solving and software development. Skilled in data analysis using Python, I am adept at deriving insights from complex datasets. Additionally, I possess valuable experience as a Maths Teacher at TCF School, where I honed my communication and teaching skills. My expertise extends to both backend and frontend web development, showcasing a comprehensive understanding of web design principles. Now, I am seeking opportunities to apply my diverse skills in software development, data analysis, and web design within the technology industry.
